See back side of flyer for more details

ANNUAL FREE CURBSIDE CLEAN UP DAYS - APRIL 20 & 21, 2005

The City of Loma Linda, in cooperation with Waste Management of California, will conduct its Annual Free Curbside Clean-up Days for **RESIDENTS OF THE CITY OF LOMA LINDA**. **Residents are responsible to take their own refuse items and place them adjacent to their trash/recycle/green waste bins at curbside on regularly scheduled collection days of EITHER April 20 or 21, 2005.**

Waste Management will accept large and bulky refuse, such as: scrap metal, wood (must be bundled and width no longer than 4ft in length), old appliances, furniture, refrigerators, freezers and other large bulky items.

NO household hazardous wastes (i.e.- televisions, computer monitors, paint, batteries), vehicles, car bodies, tires, dirt, rock, or concrete will be accepted.

The City of Loma Linda is committed to help keeping the environment clean. Please help your community by choosing to donate items that can be donated prior to placing them at curbside. The Public Works Department has a *Reuse, Repair, and Recycle Directory*. This directory identifies businesses within the Inland Empire, who will accept various types of items in good condition as donations (i.e. furniture, clothes, computers, etc). To obtain a free copy of the *Reuse, Repair, and Recycle Directory* visit the Public Works Department, or look in your SBC Phonebook under "Recycling".

Waste Management collects used oil throughout the year by appointment only. Please call Waste Management at (800) 423-9986. The City of Loma Linda Corporation Yard is a Certified Used Oil Collection Facility. You may take your oil to the Corporation Yard. For more information, please call (909) 799-4410.

San Bernardino County Fire Dept. Household Hazardous Waste Division 2824 East "W" Street, Bldg. 302, (800) 645-9228, will accept household hazardous waste (televisions, computer monitors, paint, etc) from San Bernardino County residents only. No business waste is accepted.

Tire Recycling Days—April 21-24, 2005

Bring your used, worn or huddled masses of beat up old tires to the City Hall during this scheduled event. This event is free to residents.

A trailer will be in the Civic Center parking lot. Bring your unwanted tires and place adjacent to trailer. Please do not block adjacent parking stalls and vehicle access ways. NO rims are being accepted—tires only please!

For additional information, please contact Lynette Arreola at (909) 799-4402
